

Core Values

Note: These core values were foundational to the work of creating the “Stewarding the Mercy Charism” program in 2008.

Following a collaborative dialogue begun in 1989, at MSEA Conference IX, 1990, Mercy educators affirmed "values that educators in the Mercy tradition held in common." Mercy educators reaffirmed:

- compassion and service,*
- educational excellence,*
- concern for women and women's issues,*
- world* vision and responsibility, (the word Global began to be used in the mid 1990's)*
- spiritual growth and development,*
- collaboration.*
